PL200M

speco technologies®

5x4 Multi-source / Multi-zone Matrix Distribution P.A. Amplifier

PL200M

The PL200M is the next generation of Speco Technologies' commercial amplifiers. This advanced unit features matrix technology, allowing you to route up to 5 separate inputs to 4 distinct zones. Now you can have the potential of playing a different source in each zone simultaneously. Assigning a source to a zone is as easy as pressing a button, and each source has its own separate gain, treble, bass and volume controls. Three of the inputs feature a unique universal plug that allows the flexibility of connecting either an XLR or a ¼" plug into the same input.

Features

- Simultaneous playback of up to 5 sources into up to 4 zones
- Telephone paging function and monitor output for music-on-hold feature
- Microphone 1 priority with VOX mute function
- Intelligent cooling fan
- RoHS Compliant
- Separate controls (gain, bass, treble, volume) and LED indicator for each zone
- 19" rack mount design with built-in handles (3U)

Specifications

Inputs	3 XLR / ¼" combination inputs with phantom, mic or line level selection switch / 2 RCA inputs
Outputs	4 sets of 4/8/25V/70V/100V outputs
Power output	50W RMS @ 4Ω per zone for 200W total
Power Supply	Selectable 115V/60Hz or 230V/50Hz
Frequency Response	60Hz – 17KHz +/- 3Db
LxWxH	19" x 12.2" x 5.2"
Weight	33.3 lbs.

Specifications subject to change
